Atlanta, GA—April 02, 2010—It is the year 2010, and proudly the American people voted for change; that would include: healthcare reform. The story illustrates God's love in the dynamics of a socially and politically challenged society through the lives of two people, a mother and daughter. And as the right continues to fight against long awaited change; the author writes from the heart to bring light to existing issues that plague an aggregate described by Jesus as the least of these. This is a timely publication as the nation is faced with protest that would encourage you to believe that their interest is of a Godly cause; when in fact, their actions speak against God's nature: love. A must read during a historical political era, ***Amazing Grace: A Tribute to You, The Story of Us*** is a true love story that demonstrates through the lives of two people Jesus' greatest commandment: love.

This inspirational book focuses on social challenges including senseless killings and substance abuse. It has a subtle political twist that considers the sacrifices of Martin Luther King; unforgettable change. Their time together echoes the sentiments of President Barack Obama by depicting the effects from helping; circumstances change. A story offering the only love capable to change lives: John 3:16.

Author Donna M. Watford, a Christian and registered nurse with a degree in sociology and health studies, wrote her first book not only for herself but also to provide encouragement for all of those struggling with social deviances that can often pose an unfortunate life of despair. In the absence of the author's mother and with feelings of great void, the author asked God's permission to write their life story, and then the author discovers that she is in the Will of God. It is later revealed that ***Amazing Grace*** was written not only to heal the author, but also to offer hope to a nation as well.
